Your Reconciliation initiative

Reconciliation as a state of mind

It begins within oneself as a personal, subjective experience. Reconciliation is a first step towards peace, order and justice. The awareness of the value of reconciliation enables us to act with foresight, to operate connectively and integratively, and to find a synthesis between supposed contradictions and conflicts.

The aim is to build a growing global network for a life in dignity and peace for all mankind.

The S.E.R. Foundation

The S.E.R. Foundation is an NGO with advisory status at the UN ECOSOC (Economic and Social Council), also associated with the UN DPI (Department for Public Information). One of its global commitments is to foster reconciliation and peace.

Participation and Networking

In order to unite all participants in the knowledge of each other, as well as to document and to make the reconciliation projects visible, the S.E.R. Foundation collects all projects planned in 2011 on the homepage of its partner organisation www.global-balance.org.

We would be pleased to receive your online registration of your project/event under www.global-balance.org and would ask you, on completion of your project, for a short report including photo (not exceeding 1-2 pages) by 31 December 2011.
