Slide 1: Hello everyone, my name is Judy. I’m a volunteer for the association of world citizens.
Slide 2: We are all familiar with this tag that tells us how to take care of our clothes and where our clothes are made, but do you ever wonder who’s making these clothes.

Slide 3: Here’s a comparison of how much it costs to make a denim shirt in Bangladesh versus the U.S. The cost difference is not the only shocking number in clothes manufacturing.
Slide 4: According to statistics presented by UNICEF earlier this year, an estimated 150 million children worldwide are engaged in child labor. **There’s a possibility that the clothes you and I are wearing right now are made by children.**

Slide 5: These children are routinely engaged in paid and unpaid forms of work that may compromise their physical, mental, social or educational development. **What would you do to prevent children from being deprived of their right to grow and learn?**
